AGRICULTURAL INSTRUCTION DIVISION

FARM MANAGEMENT AND RURAL ECONOMICS PUBLICATIONS OF DEPARTMENT OF AGRICULTURE
CLASSIFIED FOR THE USE OF TEACHERS

The following list of publications has been prepared to assist teachers in making an intelligent selection of Department publications on topics pertaining to the subject of farm management and rural economics. Teachers should avoid requesting a large list of publications on different topics at one time, or of publications the use of which is to be distributed over a long period of school work. It must be the policy of the Department to limit the distribution of publications to actual present needs as nearly as possible, so that the funds available for purposes of publication can be made to benefit the largest possible number of real users. A few bulletins carefully studied by the teacher and the class or assigned to certain members for individual reports are of much greater service than a hundred forgotten on the shelves at home or in the school library. Copies of any of the publications listed below, except those marked with an asterisk, may be obtained free upon application to the Division of Publications of the U. S. Department of Agriculture as long as the Department's supply lasts. Those marked with an asterisk may be obtained at the prices indicated from the Superintendent of Documents, Government Printing Office, Washington, D. C. Postage stamps, coins defaced or worn smooth, foreign money and uncertified checks will not be accepted. No publications are sold by the Department of Agriculture.

Topic	Title	Publications	Price
Farm			
Management	*: Forage-crop Practices in Western Oregon and: Western Washington.....	Farmers' Bulletin 271:	.05
General	*: A Successful Hog and Seed Corn Farm.....	Farmers' Bulletin 272:	.05
